Second Annual Meeting of the Academy of Behavioral Finance & Economics-2010

September 15-17, 2010, Chicago, Illinois

www.aobf.org

Keynote Speaker: Werner De Bondt, Driehaus Professor in Behavioral Finance, DePaul University

Objectives and Scope. The Academy of Behavioral Finance &

Economics www.aobf.org offers a dedicated forum for exchange of research findings and professional advancement related to the fast-growing field of behavioral finance and economics. Given the well recognized reality that “*to make a decision, emotion is the necessary trigger (and) without emotion, one would be reduced to the state of an idiot savant who goes on endlessly calculating without the ability to make a choice*” (Olsen, 2008), the objective of the annual conference is to encourage and distribute research and inquiry in the very promising area of Behavioral Finance and Economics.

Theoretical and empirical/experimental works that involve the application of psychology and neuroscience to all areas of financial decision-making and practice will be considered for presentation at the meeting. This includes, but is not limited to, the following areas:

1. Investment and the Working of Financial Markets at all levels of functionality and capital allocation—including both public and private aspects;
2. Financial Management of Companies—both public and private entities;
3. Firm Entry and Exit Process—ranging from startup ventures to mature businesses;
4. Entrepreneurship, Innovation, and Venture Capital;
5. All other Business and Economic Endeavors that Involve Human Decision Making and Choice Under Conditions of Risk and Uncertainty;
6. Teaching and Learning—ranging from case development to other pedagogical issues.
