September 21-23, 2011, UCLA, Los Angeles, CA

www.aobf.org

Co-Sponsored By:

UCLA Anderson School of Management

Keynote Speaker:

Nobel Laureate in Economics Dr. Vernon Smith

Objectives and Scope. **The Academy of Behavioral Finance & Economics** offers a dedicated forum for exchange of research findings and professional advancement related to the fast-growing field of behavioral finance and economics. Given the well-recognized reality that “*to make a decision, emotion is the necessary trigger (and) without emotion, one would be reduced to the state of an idiot savant who goes on endlessly calculating without the ability to make a choice*” (Olsen, 2008), the objective of the annual conference is to encourage and distribute research and inquiry in the very promising area of Behavioral Finance and Economics.

Theoretical and empirical/experimental works that involve the application of psychology and neuroscience to all areas of financial decision-making and practice will be considered for presentation at the meeting. This includes, but is not limited to, the following areas:

1. Investment in and Workings of Financial Markets at all levels of functionality and capital allocation—including both public and private aspects;
2. Financial Management of Companies—both public and private entities;
3. Firm Entry and Exit Process—ranging from startup ventures to mature businesses;
4. Entrepreneurship, Innovation, and Venture Capital;
5. All other Business and Economic Endeavors that Involve Human Decision Making and Choice Under Conditions of Risk and Uncertainty;
6. Teaching and Learning—ranging from case development to other pedagogical issues.

Advances in Behavioral Finance & Economics: The Journal. A few carefully selected and further reviewed papers will be published in the *Advances in Behavioral Finance & Economics: The Journal of the Academy of Behavioral Finance & Economics*.
